# Nature-Based Solutions and Ecosystem-Based Adaptations to Climate Change and Natural Disasters

### Message from the Guest Editors

This Special Issue aims to publish an overview of the most recent advances in natural disaster and climate change mitigation and adaptation strategies using NBS and EbA. It will cover interdisciplinary and transdisciplinary solutions to addressing climate change including environmental, economic, technical, social, legal, and political perspectives from the point of views of scholars, policy makers, civil society, and practitioners. Potential topics include, but are not limited to:

- climate change mitigation
- greenhouse gas emission reduction
- climate change adaptation
- nature-based solutions
- disaster risk reduction and management
- ecosystem-based adaptation
- ecosystem restoration, rehabilitation, and management
- environmental resource planning and management
- sustainable land use planning
