

Special Issue

The Roles of Culture and Values in Sustainable Development

Message from the Guest Editors

In this Special Issue, contributions are sought from a plurality of places and cultures across the world's diverse socio-ecological systems—seeking to bring together in a single issue a diverse range of players, places, and perspectives—aiming especially to explore how culture and value systems are contributing, positively and negatively, to sustainability. This Special Issue will draw together experiences and literature from across the fields of social-ecological theory and sustainability science, the latter focused especially on recently emerging dialogues in relational theory and practice; building synergies and crystalizing new ways of envisaging sustainability. Descriptive, normative and mixed contributions are welcome, but all must engage with the broader literature and be informed by concrete examples since sustainability is only ever achieved within the contexts and tangible realities of particular ecological and sociopolitical places and spaces.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
