

Special Issue

Research on Chemical Pollutants and Sustainable Environment Management

Message from the Guest Editors

It is our pleasure to announce a new Special Issue, “Research on Chemical Pollutants and Sustainable Environment Management”, of *Sustainability*. We welcome articles presenting a holistic approach to the problems of pollution and environmental protection, as well as describing achievements in research methodology and data interpretation. Contributions from different disciplines can be highly effective in explaining the responses of environmental components to stressors and developing innovative solutions for the protection and restoration of the environment. In this context, we also invite you to present interdisciplinary works on methods of preventing environmental damage, protecting ecosystems, integrated and sustainable resource management. We invite original research articles and critical reviews on topics related to the following:

- Chemical pollutants—sources, fate, migration, and accumulation in ecosystems.
- Water, soil and plant quality control.
- Water–soil–plant interactions.
- The impact of land use on water and plant quality.
- Policy in water and soil management.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
