Striving towards Sustainable Development in Central and Eastern Europe: From the Environmental, Ecological and Technological Perspectives

Message from the Guest Editors

The countries of Central and Eastern Europe have struggled for decades with many social, economic, and environmental problems. Most of these countries experienced significant civilizational leaps after joining the European Union. These changes have entailed an increase in sustainability efforts. Striving toward sustainable development is an ongoing process subject to modifications, as science, technology, and societal expectations develop. Therefore, sustainability efforts in this part of Europe are extensive and concern almost every aspect of life. The aim of this interdisciplinary Special Issue is to bring together descriptions of research in environmental engineering and protection and ecology, as well as in technical sciences that support Central and Eastern Europe in fulfilling their sustainable development goals, both locally and on a regional scale. We invite submissions of manuscripts that present research problems relevant to the broad topic of sustainable development and those that propose new, regionally appropriate indicators of sustainable development.

Guest Editors

Dr. Agnieszka Bieda

Dr. Ewa Szalińska Van Overdijk

Dr. Agnieszka Klimek

Dr. Mateusz Jakubiak

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
