Special Issue

Digital Twin and Al-Driven Sustainability Excellence

Message from the Guest Editors

The increased deployment of digital infrastructure has provided great opportunities to perform data-informed diagnosis, analysis, prediction, and optimization. With the help of both real-time data and historical data, Al methods, particularly machine-learning-driven methods. have revolutionized the landscape of sustainability practices. Meanwhile, digital twin technology, which creates a virtual representation of industrial entities or processes with synchronized updates from its physical entities, can provide a great testbed for virtual verification, simulation, and optimization. The convergence of DT technology and AI has emerged as a powerful force driving innovation across various industries. This symbiotic relationship has paved the way for groundbreaking advancements in sustainability practices, revolutionizing how we approach environmental conservation, resource management, and societal well-being.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
