

## Special Issue

# E-learning and Smart Education for Sustainable Development in Education

### Message from the Guest Editors

Sustainability, equity, quality, and efficiency in education are not only linchpins of international policy but also a fundamental demand of society. The advent of innovative technologies such as generative artificial intelligence, smartphones, the metaverse, and the Internet of Things presents both a remarkable opportunity to bolster sustainable development in education as well as a tremendous challenge to education.

### Guest Editors

Prof. Dr. Jiyou Jia

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
