

Special Issue

Utilization of Solar Energy in Smart Buildings: Second Edition

Message from the Guest Editors

This Special Issue aims to collect research that address the varying aspects of sustainable solar energy applications in smart buildings, and thereby provide an international forum for the dissemination of the latest advancements in this domain. Topics of interest include, but are not limited to, the following:

- Solar photovoltaic integration in buildings (BIPV);
- Hybrid solar–wind power technologies;
- Advanced solar energy technologies;
- Advanced energy storage technologies;
- Advanced renewable energy systems (solar heating and cooling, PV, PV/T, and ground-source heat pump technologies);
- Solar energy policy in buildings;
- Smart control in low-energy and zero-energy buildings;
- Dynamic simulation of building energy systems;
- Building energy load prediction;
- Building energy system assessment and diagnosis;
- Big data analytics for smart energy systems and smart buildings;
- Smart building management;
- Green construction in smart buildings.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
