

Special Issue

Sustainability and Resilience of Global Economy under Market Uncertainty

Message from the Guest Editors

This Special Issue endeavors to provide an in-depth exploration of the multifaceted dynamics encompassing sustainability in the global economy, under conditions of market uncertainty. With a central focus on charting a path towards a more stable and adaptable global economy for the future, the issue aims to contribute valuable insights, empirical evidence, and policy recommendations that can inform decision making across industries, governments, and institutions. The Special Issue encompasses an array of themes that underscore the intricate dance between sustainability and the global economy. We welcome submissions that address, but are not limited to, the following suggested themes:

- ESG Ratings and Corporate Sustainability;
- Sustainability Indicators, Decision Making and Policy Dynamics for Sustainable Growth;
- Eco-Innovations for Economic Resilience;
- Risk Management and Sustainable Business;
- Artificial Intelligence for Sustainability;
- SDGs 2030 and Global Economic Pathways;
- Inter-organizational Learning for Sustainability;
- Geopolitical Factors and Economic Sustainability;
- Financial Markets and Sustainability.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
