

Special Issue

Farm Cooperatives and Sustainability

Message from the Guest Editor

There is increasing research interest in farm cooperatives. Recent studies have documented the importance of farm cooperatives in rural development and farm household wellbeing. However, not much attention has been given to the relationship among farm cooperatives, farm economics, environmental economics, and sustainability. This call for papers aims to fill this knowledge gap. Both theoretical and empirical papers are welcome as long as they fit into the theme of this Special Issue.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
