

Special Issue

Role of Farmers' Socioeconomic Factors in Sustainable Production and Livelihoods under Climate Change

Message from the Guest Editors

The purpose of this Special Issue is to explore the rarely considered aspect of farmers' socioeconomic factors and its ultimate impact on their welfare in the era of changing climatic conditions and deteriorating environmental conditions. This Special Issue welcomes articles on the abovementioned topic, which will provide valuable contributions to the literature on climate-centered studies. Keywords

- adaptation and adaptive capacity
- gender disaggregated effects
- crop productivity
- economic efficiency
- credit access through informal markets
- farmer cooperatives
- access to input markets
- the role of marketing intermediaries
- technology adoption
- advisory services
- farmers' livelihoods under changing climate
- impact of co-working in information dissemination

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
