Sustainability of Farming in Future: Developing of Sustainable Intensification

Message from the Guest Editor

The concept of sustainable intensification (SI) has been adopted by policy makers as a way to protecting biodiversity and the provision of ecosystem services while meeting a growing demand for food in the world.

We are interested in papers that develop novel SI indicators at local, regional, or national level; papers that provide insights into farmer attitudes towards SI, the role of the supply chain in influencing farmer decisions towards SI; papers that incorporate spatial variation regarding environmental impacts and risks associated with food production capability (for food production and opportunities for other ecosystem services) and environmental risks; papers that discuss as well as investigate the role of communication and knowledge exchange of innovations on achieving SI.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
