

Special Issue

Farming 4.0: Towards Sustainable Agriculture

Message from the Guest Editors

Farming 4.0 is expected to shift toward an innovation- and knowledge-based economy, ultimately resulting in safe, cost-effective, efficient, and environmentally sound agriculture. This Special Issue seeks to contribute to the sustainable agriculture agenda through enriching scientific knowledge in an effort to proliferate performance efficiency and support decision-making in modern agri-business. Indicatively, the following topics are welcome to be captured in the contributions to the present Special Issue: information and communication technologies (ICT), Internet of Things (IoT), machine-embedded tools, robotics, automation, human-computer interaction, artificial intelligence, remote sensing (e.g., wireless sensor networks, remote sensing and GIS applications, biosensors, physical/chemical/optical sensors), data management (e.g., big data, data mining, data visualization, image processing, knowledge management, data/metadata standards, ontologies for agriculture, knowledge repository, web of data and open data), traceability tools, social networking, etc.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
