

Special Issue

Feature Papers in Sustainable Transportation Models and Applications

Message from the Guest Editor

Sustainable transport models are a fundamental tool to analyze the behavior of users and goods in transport networks. These models allow the optimization of mobility considering the associated social, economic, and environmental effects. In this Special Issue, we invite papers related to all transport modes, which propose related mathematical models in the analysis, modeling, or promotion of sustainable mobility in all its aspects. Novel contributions proposing new theoretical insights, method development, or applications are encouraged.

Guest Editor

Prof. Dr. Luigi dell'Olio

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
