

Special Issue

Sustainability in Firm Internationalization and International Trade

Message from the Guest Editor

The research lines of this Special Issue mainly concern:

- the analysis of firm internationalization processes, with particular reference to the different types of internationalization (e.g., exports, direct foreign investments, joint-ventures, etc.) and how firms promote sustainable development;
- the analysis of the determinants of bilateral trade flows, in relation to the characteristics of the production systems of individual countries, the characteristics of legal and institutional systems and the matrix of bilateral relations, and the role of trade policies aiming to ensure sustainable development;
- the study of the effects of firm internationalization on economic growth and sustainable development.
