

Topical Collection

Food Additives and Sustainability

Message from the Collection Editors

This Topical Collection will accept research involving:

- Sustainable production of crops, microorganisms and animals as raw material for food additive production
- Chemical characterization of natural food additives
- Sustainable/alternative processes of additive production
- Analytical methods of food additive determination
- Additive interaction with food matrices
- Bio-based/functional food ingredients
- Biochemical impacts of food additives in the human body
- Toxicology and pharmacokinetics of food additives
- Consumer studies
- Food additive policy and legislation

Keywords

- Natural food additives
- sustainable additives
- food chemistry and technology
- sustainable processes

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
