Special Issue

Sustainable Approaches in Food Cold Chain

Message from the Guest Editors

This Special Issue will focus on the use of sustainable approaches in food cold storage. Food cold storage is one of the most important ways of guaranteeing food quality and safety in whole supply chain management. However, the food cold storage/cold chain process is a long-term state. The transparency, traceability and sustainability of food in cold storage are not easy to know or exploit. It is necessary and important to apply advanced information technology (IT) and management approches, such as the Internet of Things (IoT), advanced sensing technology and also energy harvesting technology for improving the food transparency, traceability and sustainability in cold storage/cold chain. Given the importance and relevance of this Special Issue, we invite researchers to contribute original research articles as well as review articles.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
