

# Special Issue

## Food Land Belts

### Message from the Guest Editors

This Special Issue of *Sustainability* is focused on Food Land Belts (FLB) related to different cities in different countries. FLBs and related projects (names have varied in different territories and countries) have emerged increasingly. They are particularly interesting and important today because of the emphasis placed on sustainable food produce. In this Special Issue a variety of FLBs and their territorial bases are discussed—e.g. how they have been established, what makes for their success, as well as for the success of the different food projects, what pitfalls have caused problems in the management and maintenance of some FLBs, what have been the roles of different levels of government, and what have been the roles of citizens, farmers, how are the linkages managed between agri-food producers and consumers, what are the other functions supported by FLBs that contribute to mobilizing support for the FLBs, e.g., what does a FLB contribute to environmental sustainability. Prof. Dr. Christopher R. Bryant

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
