

Special Issue

Food, Supply Chains, and Sustainable Development

Message from the Guest Editors

Increasing attention has been paid to food, supply chains, and sustainable development. The technology used during food supply chains' operation also has an impact on sustainability. This Special Issue welcomes submissions on, but not limited to, the following topics:

- Food enterprises' strategies to achieve sustainability and reduce loss.
- Trade-offs between corporate social responsibility, environmental impacts and profits.
- Technologies to improve food supply chain operational efficiency and achieve sustainability.
- Innovative theories and approaches to coordinate all members vertically and horizontally.
- Government efforts to reduce and mitigate food supply chains' environmental impacts.
- Public policies to encourage enterprises to make efforts.
- Approaches to enhance consumer awareness of sustainability.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
