

Special Issue

Functional Materials in Sustainable Chemistry

Message from the Guest Editors

This Special Issue aims to address the development and application of functional materials with promising performance using sustainable raw materials with wide availability. Moreover, the integration of green synthesis routes and their progresses in producing the functional materials for various applications are greatly welcomed. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Functionalized polymers and their composites;
- Functionalized nanoparticles and their composites;
- Functionalized quantum dots and their composites;
- Production and application of functionalized materials in various fields;
- Green approaches in synthesizing functional materials.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
