

Special Issue

The Future of Industry Seen from the Perspective of Sustainability

Message from the Guest Editor

This Special Issue aims to collect contributions that focus on the future of the industry, as seen from the perspective of sustainability, focusing on the implementation of a sustainable transition to the industrial sector and the possible ways to foster and tackle it in an integrated manner. The Special Issue will include, but will not be limited to, the following topics:

- **Implementing sustainability in industrial firms and industrial systems** (interventions; the decision-making process; barriers and drivers; performance).
- **Integrating sustainability in industrial firms and industrial systems** (relationships, synergies and trade-offs of sustainability and other aspects, such as circular economy, industry 4.0, operations and quality management).

This Special Issue welcomes heterogeneous contributions such as: theoretical contributions proposing the advancement of current knowledge; empirical contributions understanding the current situation and suggesting and proposing guidelines for future actions; and revisions of the extant knowledge and propositions for future advancements.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
