

Special Issue

Spatiotemporal Data and Urban Sustainability

Message from the Guest Editors

In this Special Issue, research areas may include (but are not limited to) the following topics:

- Modelling and analysing urban phenomena;
- The monitoring and assessment of SDG 11: sustainable cities and communities;
- Reliability evaluation methods for urban information;
- Spatiotemporal urban data model;
- Updating the urban database;
- Visualization methods for urban data;
- Analytical and quantitative methods for urban phenomena;
- AI applied to Earth Observation and geospatial data for urban studies;
- Simulation models and techniques for urban analysis;
- Urban data quality and uncertainty;
- Algorithms and methods for deriving geospatial essential variables for SDGs;
- Urban planning issues (community development, zoning, etc.);
- Urban transportation and mobility (airports, subways, etc.);
- Urban consumption and commodities;
- Crowdsourcing-data-enabled urban sustainability;
- Intelligent traffic systems;
- Knowledge graphs.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
