

Special Issue

Artificial Intelligence Leading the Way to Environmental Solutions

Message from the Guest Editor

The aim of this Special Issue is to collate theoretical and practical analyses of AI leading the way to environmental solutions. It aims to understand how AI can foster the sustainable development of the economy of different countries or regions and what solutions there are to shift to a more sustainable economy through the application of AI.

Potential topics may include, but are not limited to the following:

- AI and sustainable economy;
- AI and ecological transition;
- AI helping firms on the road to sustainability;
- AI-driven digital transformation for sustainable tourism;
- AI and energy transition;
- AI and sustainable society;
- AI and sustainable transport;
- AI and climate change;
- AI, digitalization, and circular economy ;
- AI and pro-environmental behavior;
- AI and eco-efficiency;
- AI and the decarbonization of economy;
- AI and sustainable manufacturing;
- AI and sustainable entrepreneurship.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
