

Special Issue

Flexible Resources Investment in New-Type Electric Power Systems for Sustainable Development

Message from the Guest Editor

This Special Issue focuses on investments in flexible resources in new-type electric power systems for sustainable development. The purpose of this Special Issue is highly consistent with the scope of *Sustainability*. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- The current development and issues of flexible resources investments in new-type electric power systems.
- Flexible resources evaluation in new-type electric power systems.
- Flexible resources investments at the power supply side.
- Flexible resources investments at the power grid side.
- Flexible resources investments at the power demand side.
- Coordinate investments for flexible resources at power supply side, power grid side, and power demand side.
- The market mechanism for flexible resources investment and development.
- Other related topics.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
