# **Special Issue**

# The Role of Gas in Transition towards Low Carbon Energy Future and Sustainable Energy Security

# Message from the Guest Editor

This Special Issue aims to contibute to investigating the role of gas and the gas industry in paving the way towards a low carbon energy future, and in attaining sustainable energy security, with a critical lens. This emerging new energy order will also expand the pillars of the traditional energy security calculus. The transition towards a low carbon energy future will be ensured not only by combining policies and technology, but also by how fast and successfully the gas industry will adapt itself to the new reality across the gas value chain. Keywords

- natural gas
- LNG
- decarbonised gases
- renewable gases
- sustainable energy security

# **About the Journal**

# Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

### **Author Benefits**

# Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
