

Special Issue

Geological Engineering and Sustainable Energy Geotechnics

Message from the Guest Editors

The role of geological engineering and sustainable energy geotechnics in sustainable development and in design adaptation, which aim to build geo-structures that are more resilient to climate change, can play a significant role because of their early implementation in the design and construction process, and can eventually contribute to reduced failure probabilities, as well as reduced consequences from anticipated failures due to the occurrence of geohazards. The aim of this Special Issue is to invite pilot research projects, case histories, and innovative methodologies that underpin the importance of geological engineering and sustainable energy geotechnics in a more sustainable future for communities, as well as the physical and built environment as a whole.

Guest Editors

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
