

## Special Issue

# Geotechnical Disaster Risk Mitigation and Sustainable Development in Complex Geo-Environment

### Message from the Guest Editors

This Special Issue will have an overarching focus on new theories, methods, and techniques that have been developed to analyze the deformation mechanisms and monitor, warn, and mitigate geotechnical disasters in complex geo-environments. The papers included in this Special Issue can help us to exchange ideas on how to make the construction of geotechnical engineering projects more sustainable and disaster-proofing. Specific subtopics include but are not limited to the following:

- Geotechnical disaster detection
- Mechanisms and deformation analysis of geotechnical hazard
- Geotechnical disaster risk analysis, assessment, and management
- Geotechnical disaster monitoring, warning, and risk mitigation
- Emergency management and post-disaster reconstruction
- Geotechnical catastrophes and environmental sustainability
- Lessons related to field geotechnical disaster and sustainable post-disaster reconstruction

### Guest Editors

Dr. Guang-Liang Feng

Prof. Dr. Changdong Li

Prof. Dr. Honghu Zhu

Dr. Guo-Feng Liu

### Deadline for manuscript submissions

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario  
Institute of Technology, Oshawa, ON L1G 0C5, Canada

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
