Special Issue

Sustainable Innovations and Governance in the Agri-Food Industry

Message from the Guest Editors

Over the last few decades, the agri-food industry has faced several issues, with wide and often underestimated effects on society (Marotta and Nazzaro, 2020). Specifically, economic and political-institutional changes along with environmental concerns are increasing citizen-consumers' awareness about food production and its connection with health and the environment (Nazzaro et al., 2018; 2019). To overcome this challenge, agri-food companies are substantial efforts to increase their sustainability (Kemp and Pearson, 2007) by implementing sustainable innovations through the adoption of different governance mechanisms (Stanco et al., 2020).

Given the crucial role of sustainability and innovation, there is the need to further explore the aspects able to promote the adoption of sustainable innovations in the agri-food industry as well as the governance mechanisms necessary to facilitate their implementation in the supply chain.

This Special Issue aims to contribute to the literature on sustainable innovations and governance mechanisms in the agri-food industry investigating the factors that enable their implementation and the creation of shared value.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
