

Special Issue

Green Energy Technologies for Sustainability

Message from the Guest Editors

This Special Issue collects research articles and critical reviews about scientific and technical information on recent advances in green and renewable energy for sustainable development. The primary areas of interest of this Special Issue include but are not limited to (1) high technological skills for achieving sustainable development goals; (2) abundant sources for renewable and green energy development; (3) safe and efficient devices for low-grade energy; (4) advanced materials for green energy; energy management systems, monitoring, modeling, and (6) utilizing electrochemistry and materials science training to broadly explore issues facing environment development. The *Special Issue* welcomes both qualitative and quantitative studies, as well as empirical and theoretical contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
