

Special Issue

Sustainability and Green Management Practices in Service-Based Sectors

Message from the Guest Editor

This Special Issue will focus on topics in the area of pro-environmental management practices in service-based sectors such as higher education, hotels, banks, NPOs, etc. Researchers around the world in the field of service management are currently paying significant attention to the following research topics: green human resources management, green leadership, green work-related outcomes, green performance, and sustainability practices. This Special Issue proposes to develop insights by paying attention to empirical and theoretical contributions in green management practices in service-based sectors. This Special Issue proposes to develop existing insights in a different direction by directing attention towards contemporary empirical and theoretical contributions in green management practices, which may be used to help to meet ecological demands. Hence, the Special Issue welcomes original research and theory development papers as potentially appropriate studies for this Special Issue.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
