Greening Behavior towards Carbon Neutrality

Message from the Guest Editors

This Special Issue aims to discuss the greening behavior towards carbon neutrality, which involves models, theories, simulations, empirical studies, and related research on greening behavior and carbon neutrality. We cordially invite authors to contribute either original research articles or review articles dealing with a broad range of topics, including, but not limited to, the following areas:

- The greening behaviour of households (or individuals), firms, and the public towards carbon neutrality;
- Methods of measuring greening behaviour of households (or individuals), firms, and the public;
- Voluntary emission-reduction scheme towards carbon neutrality;
- Potential environmental effects of a voluntary emission-reduction scheme;
- Green low-carbon transition towards carbon neutrality;
- Cost–benefit analysis of green behaviour;
- Other environmental policies towards carbon neutrality.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
