# **Special Issue**

# Groundwater Resources: Sustainable Use and Management, Pollution Prevention, Remediation, Technology and Strategies

# Message from the Guest Editors

Global climate change and urbanization significantly affect water cycle systems and alter the use and management of groundwater resources that are essential for survival. Strategies are needed to secure ecologically and environmentally sound groundwater resources for the next generation against natural and artificial threats. We welcome researches focus on the protection and sustainable use of groundwater resources. Topics of interest include but are not limited to:

- Sustainable management of groundwater resources;
- Regional aquifer systems under climate change;
- Technology and strategies for sustainable use of groundwater;
- Tracing flow systems using chemical and isotopic indicators;
- Groundwater quality and contamination;
- What is next with emerging contaminants?
- Ecohydrology variability and global climate change;
- Groundwater remediation:
- Groundwater-surface water interactions;
- Biogeochemistry of hyporheic zones;
- Acid mine drainage;
- Groundwater sustainability: Engineering approaches and perspectives;
- Sustainability education research practice in schools;
- Groundwater policy.

# **About the Journal**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

### **Author Benefits**

## Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
