

## Special Issue

# Digital Economy and Business Innovation for Sustainability Transitions

### Message from the Guest Editor

This Special Issue aims to examine the intersection of digital economy and business innovation in driving sustainability transitions, welcoming empirical studies, theoretical frameworks, and policy analysis that extend the literature to provide insights and actionable strategies for sustainable development across industries. The Special Issue will supplement and extend the growing literature on sustainable innovation and digital transformation, integrating these domains and enhancing the understanding of their synergies, firm and industry strategies, and governance needs. Research areas may include (but are not limited to) the following:

- Sustainability impacts of digital economy and innovation projects across diverse industries and geographies.
- Digital sustainability conceptualization—develop or validate theoretical models that integrate digital economy and business innovation with economic, social, and governance (ESG) goals.
- Social aspects among ESG sustainability and its framework to assess and measure digital sustainability.
- Innovation in sustainable business models.
- Sustainability policy and governance approach analysis.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
