

Special Issue

Potential Solutions for Environmentally Friendly Supply Chain Transformation

Message from the Guest Editors

Special Issue Potential Solutions for Environmentally Friendly Supply Chain Transformation seeks the submission of contributions that delve into technological applications and innovative practices used to promote environmentally friendly supply chains. To meet this aim, this Special Issue invites the submission of original and meaningful works which include real-world practices of environmentally friendly supply chain transformation management and decision support.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
