

## Special Issue

# Sustainable Perspectives: Renewable Energy Policy and Economic Development

### Message from the Guest Editors

Dear Colleagues: Research on various economic, institutional, and financial factors that could influence renewable energy use and sustainable development is vital for the implementation of effective energy and environmental policies. This Special Issue invites original research articles and reviews related to (but not limited to) the following areas:

- Renewable energy sources, institutional factors, and sustainable development;
- Renewable energy and residents' energy demand;
- Energy security, renewable energy, and economic growth;
- Renewable energy investments and economic development;
- The role of the financial sector in renewable energy production;
- Green innovation, renewable energy, and carbon neutrality;
- Renewable energy and sustainable transportation;
- Green finance, renewable energy, and sustainable development;
- Technological infrastructure, renewable energy, and climate control;
- Mitigating harmful emissions and environmental footprint through renewable energy;
- Renewable energy and sustainable industrialization;
- Renewable energy and sustainable agriculture activities;
- Climate change, renewable energy, and economic development.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
