

# Special Issue

## Advanced Research on Wildland Fires, Urban Fires and Resilience

### Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following:

- Wildland fire spread;
- Wildland–urban interface (WUI) fires;
- Urban fires (building fires and underground space fires);
- Forest and urban risk assessment;
- Prescribed burning and controlled burning;
- Forest and urban fire detection, forecasting and prevention;
- Incident management;
- Personnel evacuation;
- Forest resources investigation;
- Fire protection equipment;
- New building materials and technologies;
- Sustainable development of urban construction;
- Economic sustainability;
- Urban and forest planning;
- Fire ecology and management;
- Regulations, standards, and guidelines.

We look forward to receiving your contributions.

---

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
