

Special Issue

Feature Papers in Economic and Business Aspects of Sustainability—2nd Edition

Message from the Guest Editor

This Special Issue is the continuing issue of a former Special Issue entitled “Feature Papers in Economic and Business Aspects of Sustainability”. We are pleased to announce a new Special Issue entitled “Feature Papers in Economic and Business Aspects of Sustainability—2nd Edition”. This is intended to be a significant benchmark collection of high-quality reviews and original papers that address recent advances in our understanding of the economic and business aspects of sustainability. The concept of economics and business should here be broadly interpreted to also include financial analysis, regional development, management, marketing, organizational studies, accounting, information systems, business education, and studies of specific industries and sectors. Only contributions from the Editorial Board and papers submitted by distinguished scholars in the field, namely those invited by the Editorial Board Members, or the Editorial Office, will be accepted for publication in this Special Issue. Researchers are welcome to contact the Editorial Office to be invited.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
