

Special Issue

Achieving Sustainable Development Goals through Environmental-Economic Decision-Making Process and Climate Investment

Message from the Guest Editors

Ecological issues are of increasing significance for governments and the general public, engaging the population in mitigating climate change to bring economic, social and ecological results. This Special Issue aims to collect evidence of the implementation of SDGs bringing economic advantages at the micro and macro levels. We aim to collect rigorous research, reviews and case studies measuring the economic impact of SGDs while addressing global climate challenges.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
