# **Special Issue**

# Sustainability of Archaeological Sites, Monuments and Historic Ensembles amid the Continuous Expansion of Cities and Infrastructures

### Message from the Guest Editor

This Special Issue focuses on the sustainability of archaeological sites, monuments, and historic ensembles. We aim to offer a thoughtful analysis of the issues at hand while proposing sustainable and innovative strategies for preserving and integrating historical spaces in the contemporary urban, peri-urban, and extra-urban landscape. Contributions highlight realworld case studies, cutting-edge research, and practical solutions, including:

Urbanisation and its effects, i.e., the exploration of how rapid urban development impacts historical and archaeological sites.

Cultural heritage management and resilience, i.e., the critical analysis of policies, strategies, and practices designed to protect and maintain monuments and historic ensembles.

Innovative topographic surveying and information management technologies are critical tools for documenting, restoring, and presenting archaeological sites, monuments, and historic ensembles.

Environmental and climate challenges, i.e., the study of how environmental and climate change are affecting historical sites.

Interdisciplinary collaboration, i.e., highlighting the importance of partnerships between archaeologists, urban planners, etc.

## **About the Journal**

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
