

Special Issue

The Optimization of Food Processing in the Context of the Sustainable Development Goals

Message from the Guest Editors

This Special Issue aims to promote innovative research focused on the optimization of food processing technologies that support environmental, economic, and social sustainability. It seeks to explore approaches that improve resource efficiency, minimize ecological impact, and enhance the nutritional and functional quality of food products. By bringing together cutting-edge advances and interdisciplinary perspectives, this issue will contribute to the transformation of food systems toward greater sustainability and resilience. This Special Issue welcomes original research articles and reviews focusing on the optimization of food processing from a sustainability perspective.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
