

## Special Issue

# The Optimization of Food Processing in the Context of the Sustainable Development Goals

### Message from the Guest Editors

This Special Issue aims to promote innovative research focused on the optimization of food processing technologies that support environmental, economic, and social sustainability. It seeks to explore approaches that improve resource efficiency, minimize ecological impact, and enhance the nutritional and functional quality of food products. By bringing together cutting-edge advances and interdisciplinary perspectives, this issue will contribute to the transformation of food systems toward greater sustainability and resilience. This Special Issue welcomes original research articles and reviews focusing on the optimization of food processing from a sustainability perspective.

### Guest Editors

Dr. Patricia Morales

Dr. Erika N. Vega

Prof. Dr. Virginia Fernández-Ruiz

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
