

## Special Issue

# AI, Sustainability, Organizations, and Society

### Message from the Guest Editors

The world is currently facing a severe climate crisis. The time for debating climate change or global warming has passed; now, we must act. This Special Issue invites scholars and experts to explore the impact of AI use by organizations and society on organizational and environmental sustainability to encourage AI in environmental innovativeness and recommend practical uses of AI to improve sustainable development. Potential topics include (but are not limited to):

- Use of AI in organizational sustainability;
- AI and human resource management;
- AI and green marketing;
- AI and green behavior;
- Application of AI in service research and its impacts on service sustainability;
- Human–AI interaction for sustainable development;
- Human actor’s psychological response to AI.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
