

Special Issue

Health Impacts of Climate Change: Urbanization and Inequalities

Message from the Guest Editor

We would like to invite you to contribute to our new Special Issue “Health Impacts of Climate Change: Urbanization and Inequalities”, which is launched by the journal *Sustainability*. The scope of the Special Issue covers the health impacts of exposures related to climate change and the effect modification according to urbanization level, urban policies, and/or inequalities in the socio-economic and environmental fields. We are looking forward to receiving your invaluable manuscripts. The topics of interest to this Special Issue include but are not limited to:

The health impacts of extreme temperatures and air pollution;

The roles of urbanization and socio-economic inequalities on the health impacts of environmental exposures.

Guest Editor

Dr. Whanhee Lee

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
