## **Special Issue**

# High Impact Events and Climate Change

## Message from the Guest Editors

We invite you to submit original research papers to a Special Issue on the topic of "Local Water Security for Health". This Special Issue will focus on the social, economic, cultural, governance, structural, and environmental dimensions of local water security, their links to each other, and to human health and wellbeing. This Issue seeks to advance the dialogue around water (in)security in small communities around the world, through the explicit recognition of the links between the societal and physical systems, human health, and the tools that enhance our ability to capture these complexities towards building resilient, water-secure, healthy communities. We particularly welcome papers focused on marginalized populations.

## **About the Journal**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
