

Special Issue

High-Performance Green Building Materials: Properties, Developments and Applications

Message from the Guest Editor

This Special Issue, “High-Performance Green Building Materials: Properties, Developments, and Applications,” aims to publish the latest original and innovative research or review articles on construction materials used to construct civil infrastructure. More specifically, authors are encouraged to submit their research with a focus on materials used in the construction of buildings, bridges, pavements (both rigid and flexible), the use of recycled materials, innovative materials, renewable materials, nanomaterials, biomaterials, and sustainable techniques, and technologies applied for production, processing, construction, maintenance, and material evaluation. We look forward to receiving your work by May 31, 2023.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
