

Special Issue

New Directions for Diversity, Inclusion and Sustainability in Higher Education

Message from the Guest Editor

This Special Issue aims to push the boundaries of research, science, and scholarship on the nexus between diversity, inclusion, and sustainability in postsecondary and higher education. The real success of diversity, equity, inclusion, and belonging (DEIB) efforts in higher education depends, in part, on their sustainability, and an integral component of sustainability is the capacity to embrace diverse communities, voices, and approaches in equitable and inclusive ways that foster belonging. In light of increasing challenges faced by higher education related to the global pandemic (COVID-19), record-breaking turnover and burn-out (“The Great Resignation”), international wars and political unrest, climate change, remote teaching/working, and rising costs, to name just a few, it is more important than ever that scholars, practitioners, campus/community leaders, and those who cross these categories conduct, commission, and curate high-quality research that charts “New Directions for Diversity, Inclusion, and Sustainability in Higher Education.” This is the expressed scope and purpose of this Special Issue of Sustainability.

Guest Editor

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
