

Special Issue

Housing Sustainability

Message from the Guest Editors

The journal *Sustainability* is devoting a Special Issue to the analysis of sustainability in the housing sector. This issue conceptualizes sustainability as maximizing the positive impacts and minimizing the negative impacts of environmental, social, ethical, and economic undertakings. The aims of this Special Issue are: (1) to provide practical, conceptual, and/or theoretical insights into the field of housing sustainability through different lenses—social, cultural, ethical, environmental, psychological, etc.; (2) to gain a deeper understanding of sustainable housing policies and practices from different perspectives; and (3) to expand and challenge the frontier of housing sustainability research by generating new knowledge, sharing innovative ideas, and identifying a new direction for future research.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
