

Special Issue

Human Lifestyles and Behaviors. Sustainable Environments for Better Health, Quality of Life and Wellbeing

Message from the Guest Editors

The main purpose of this Special Issue is to underline the interdisciplinary connections between the environment and human health, focusing principally on new ideas and suggestions to promote both sustainable development and human health and well-being. The overall goal is to create a new approach to the analysis of human impacts on the natural environment and, conversely, to determine how the environment can modulate human lifestyles and behaviors, and thus human health. This Special Issue is intended to integrate knowledge on these themes, adding relevant and innovative findings to the existing scientific literature.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
