

Special Issue

Sustainable Transportation Systems Design and Management

Message from the Guest Editors

This Special Issue aims to showcase the latest research and innovation in sustainable transportation development, inspiring more scholars who are interested in and willing to contribute to this field.

- Transportation Operation Management
- Intelligent Maintenance for Transportations
- Transportation Safety and Security
- Empirical Studies on Sustainable Development
- Road network saturation and transportation state identification
- AI-based transportation congestion prediction and diversion technology
- Intelligent passenger flow monitoring system
- Performance optimization design of critical components or systems
- Health monitoring and fault diagnosis of critical components
- Prognostics and health management technologies
- Safety risk assessment and optimization design
- Transportation accident detection and emergency management
- Intelligent lifecycle safety operation and maintenance technologies
- Innovation management of transportation companies
- Digitalization transformation system of companies
- Optimization of digital process of companies

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
