# **Special Issue**

# Human-Wildlife Coexistence— Future Solution

## Message from the Guest Editors

Human-wildlife coexistence represents one of the most pressing and complex challenges for sustainable development in the 21st century. This Special Issue aims to explore innovative, interdisciplinary approaches that balance biodiversity conservation with the well-being of human communities. By bringing together research from conservation biology, environmental policy, climate change, and ecosystem sustainability, it seeks to highlight strategies for mitigating human-wildlife conflicts and fostering coexistence in a rapidly changing world. The scope of this Special Issue spans theoretical frameworks, empirical studies, and applied solutions addressing the ecological, social, and policy dimensions of human-wildlife interactions. We encourage the submission of papers that explore case studies. technological innovations, community engagement strategies, and global perspectives on coexistence. The purpose of this issue is to supplement the existing literature by offering future-focused solutions and showcasing the latest advancements in this field.

# **About the Journal**

# Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

# Editor-in-Chief

#### Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

### **Author Benefits**

### **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### **Journal Rank:**

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
