

Special Issue

Manufacturing Supply Chain and Logistics Technology

Message from the Guest Editors

The Special Issue 'Manufacturing Supply Chain and Logistics Technology' will focus on key theoretical issues and technological challenges in the field, seeking original research contributions with both innovation and practical value. Topics of interest include the digital and intelligent transformation of manufacturing supply chains, logistics system optimization and intelligent scheduling, predictive decision-making methods based on big data and artificial intelligence, knowledge-driven supply chain management, green and sustainable supply chain design, supply chain risk management and resilience enhancement, as well as related case studies and interdisciplinary explorations. The Special Issue aims to build a bridge between academic research and industrial practice, fostering both theoretical development and engineering applications of supply chain and logistics technologies. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
